

Catch::IContext

```
classDiagram
    class CatchIContext["Catch::IContext"]
    class CatchIMutableContext["Catch::IMutableContext"]
    CatchIMutableContext --|> CatchIContext
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'Catch::IContext' with a light gray background. Below it is a box labeled 'Catch::IMutableContext' with a white background. A blue arrow points from the bottom of the 'Catch::IMutableContext' box to the bottom of the 'Catch::IContext' box, indicating that 'Catch::IMutableContext' inherits from 'Catch::IContext'.

Catch::IMutableContext
